

Endorsement for the Candidacy of Dr Simonis for President of RACGP

To all GPs who do not already know of Magdalena Simonis' great energy, commitment, integrity and inventiveness, please look at her website and believe that she will deliver as President of RACGP all that she has laid out. I encourage you to vote for her as your next president of the RACGP. Magda has already been working hard for you. She has been refining documents, advising, leading and working in teams for RACGP.

I sit on the Board of Women's Health Victoria with Magda and also on 2 sub-committees. Over the time we have worked together I have been able to see and understand the amount of work she accomplishes, her concern for her patients and her empathy for work conditions and difficulties her colleagues are experiencing. I believe she will represent your work and profession admirably. Goodness knows, Australians need a strong advocate for General Practice. Magda will deliver!

I offer this endorsement for Magdalena Simonis for President of RACGP.
